DIRECTORS' REPORT

The Directors of your Company present before you the un-audited financial statements for the nine months ended March 31, 2023. The financial results are as follows:

	31.03.2023 (Rupees 000)	31.03.2022 (Rupees 000)
Net (Loss) / Profit for the period	(84,426)	15,027
Accumulated loss brought forward	(90,449)	(78,093)
	(174,875)	63,066)
Final dividend for the year ended June 30, 2021	-	(13,788)
Transfer from surplus on revaluation Of fixed assets in respect of incremental Depreciation- net of deferred tax	11,218	10,569
Surplus on revaluation of property, plant And equipment realized on disposal	-	1900
Accumulated Loss	(163,657)	(64,385)
Earning per share - Basic	(6.12)	1.09

During the current period Company has incurred a net loss of Rs. 84.426 million as compared to net profit of Rs.15.027 million for the same period in previous year. One of the reasons for the loss during the period is that the local yarn prices have not been increased to the extent of increase in cotton prices and hence resulted in reducing the margins during the period. Another reason is high cost of energy which is mainly due to inflated dollar and withdrawal of RCET (regionally competitive energy tariff) by the Government. Furthermore the non availability / curtailment of gas have also contributed in high fuel cost

Revival of textile industry was majorly based on supplying of energy to industry at RCET (regionally competitive energy tariff). As a result of this initiative textile exports were increased by 55% from Financial Year 2020 to 2022. However this momentum has been lost recently and export's of textile products has been declined significantly mainly due to drop in demand from major export markets , high cost of energy and availability of quality cotton at inflated prices. Further there is a price differential in energy prices between Sind and Punjab and therefore Government should provide a level playing field within a country by implementing a uniform energy terrif otherwise input cost for Punjab based industry will be uncompetitive regionally and within country.

Moreover the cotton production is on a decline for last many years due to multiple factors such as climate change, uncertified seeds, unchecked business of spurious pesticides, and high cost of production with diminishing return for farmers and specifically for this period under review recent floods in the country severely affected the production of cotton. Though the Government has realized the challenges for improving the yield and quality of cotton crops and has taken small steps for its improvement still there is a long way to go. Government should fully support the farmers and help them in up-gradation of ginning technology, educate the farmer to use the quality seed and make investment in research and development of quality seed, capacity building of farmers and introduce incentives for better quality cotton that would help in motivating the farmers

We are fully aware of the challenges and are prepared to do everything possible to mitigate the adverse impact of such an event as far as it is under the control of management. We are very hopeful that current crisis will be over in the coming years by the combine efforts of Government and industry and we remain hopeful of the improving macro and micro economic situation of the Country.

For and on behalf of the Board of Directors
